### Essay:

I picked this book because it is my favorite book. The author has an amazing plot that has you sitting on the edge of your seat the whole time. He has a way of describing the events that are going on. He also introduces old characters and gives them new personalities. The reason I picked the background on my poster is because in his book Billy the Kid as an immortal is my favorite character. I mean you don't know sometimes if he is good or bad. But in the end you find his true side of the story. Anyway I would naturally pick the outlaw poster especially because he was such a respected person at such a young age.
